> Instructions <

The technical inspection is for your safety and the safety of others on the track with you. Do not try to avoid or shortcut this safety requirement. You must have a completed Technical Inspection Form to be permitted on the track.

Technical inspections will not be performed at the track. It is your responsibility to have completed a technical inspection prior to the event. This technical inspection form, completed and signed by a certified mechanic, must be brought with you to the track and presented at the Registration Desk.

No completed and signed technical inspection form means NO driving and NO refund. There are absolutely NO exceptions to this rule.

You must complete the technical inspection process no more than one month prior to the event and **after** your most recent track event. All necessary repairs are your responsibility.
